Владимир С. Костић, редовни професор неурологије на Медицинском факултету у Београду, редовни је члан Српске академије наука и уметности и директор Института за неурологију Клиничког центра Србије.

Његов научноистраживачки рад усмерен је, пре свега, на етиопатогенезу и лечење дегенеративних поремећаја централног нервног система.

Руководилац је неколико научноистраживачких пројеката, посвећених углавном генетској основи неуродегенеративних поремећаја.

Проф. др В.С. Костић био је декан Медицинског факултета у Београду од 2002. до 2004. године. Члан је бројних домаћих и међународних стручних удружења.
